ORNAMIN.

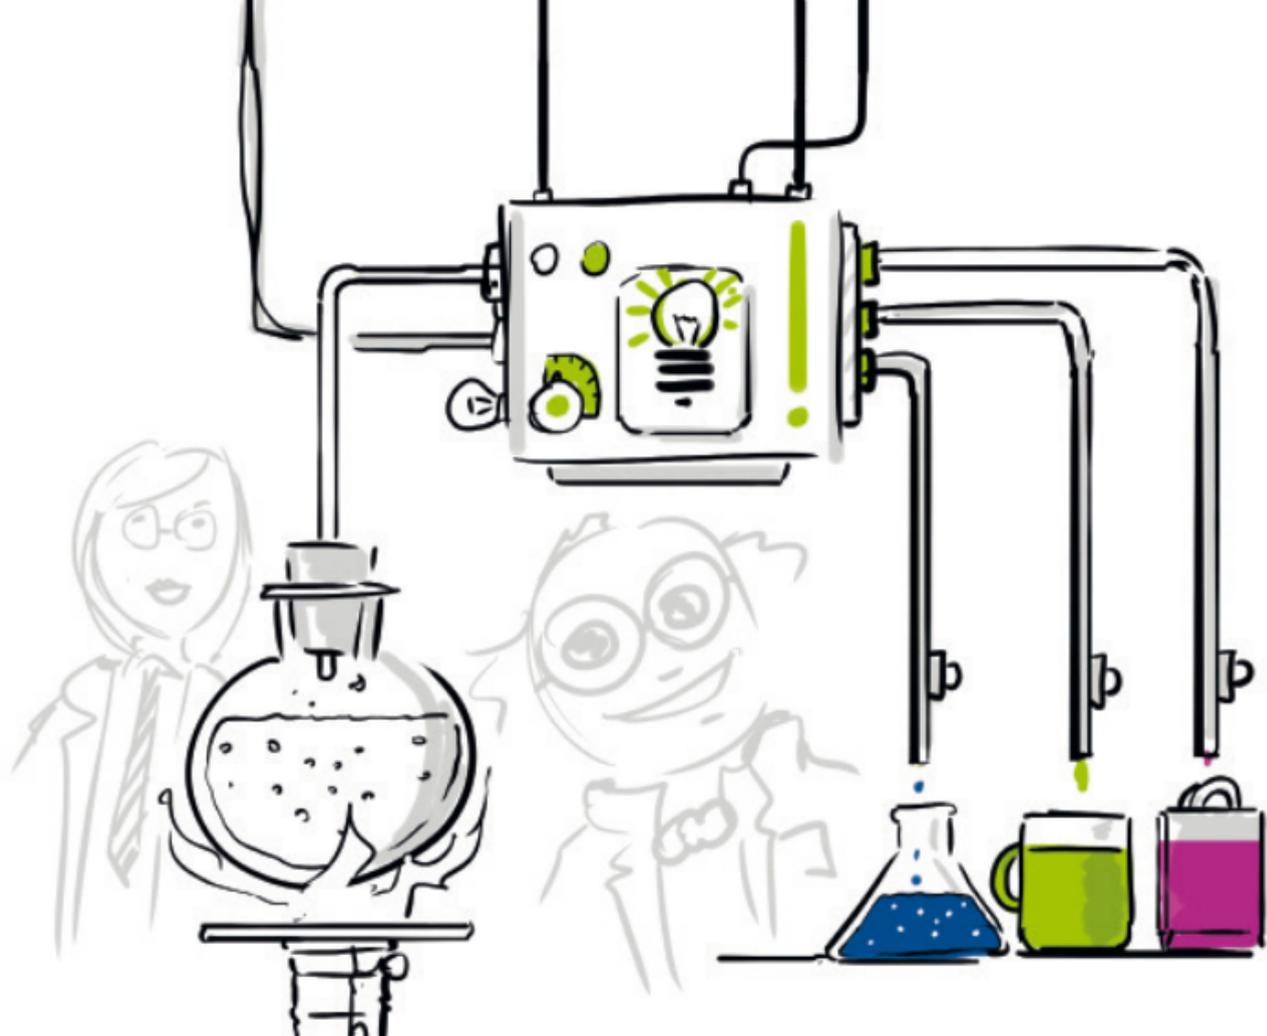

THE O IN „WOW!“

On the following pages you find what Ornamin stands for and is capable of doing. And as that is a lot this little book has become quite thick.

AN AWFULLY BUSY FAMILY.

Ornamin is a medium-sized company based in Germany and achieved a turnover of around 18 million € last year.

ALL GOOD THINGS COME IN THREES.

There are the following corporate divisions:

- 1) **ORNAMIN** Technical Plastic Parts
- 2) **ORNAMIN** Tableware
- 3) **INSTORE** Presentation of Goods

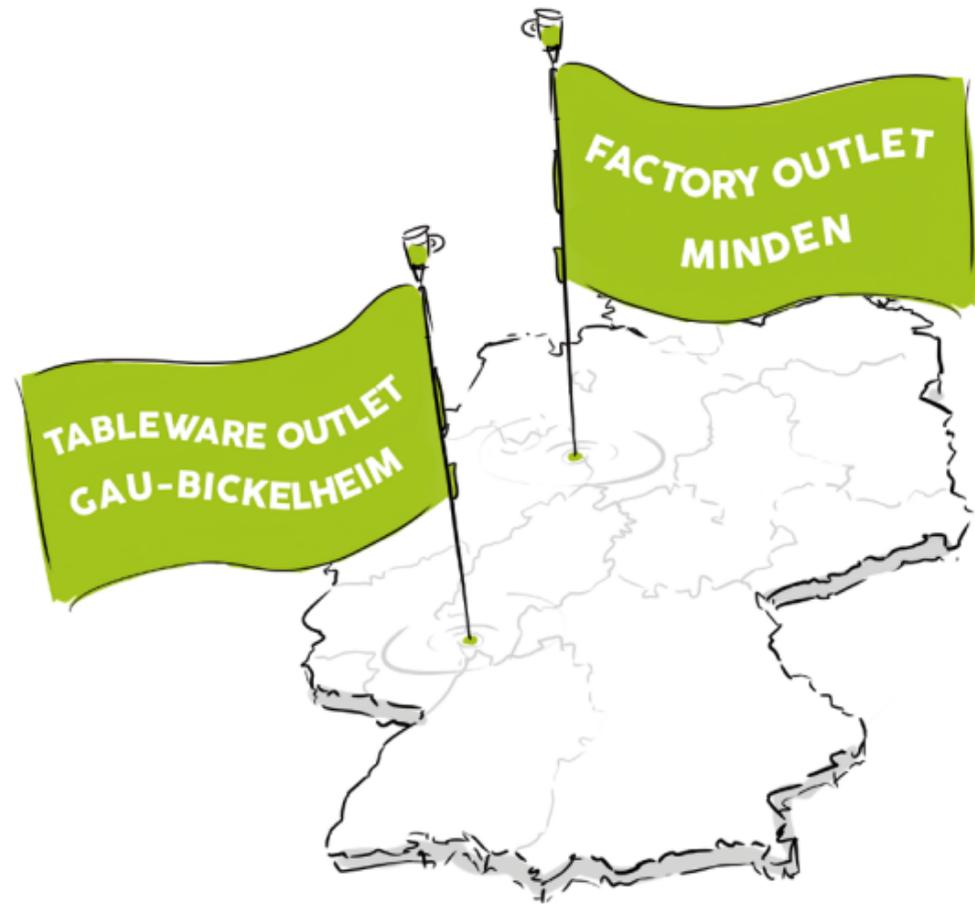

FOUNDED IN 1955 AND NEVER GROWN OLD.

Standing still is not one of our talents - Ornamin prefers to be one step ahead of the game.

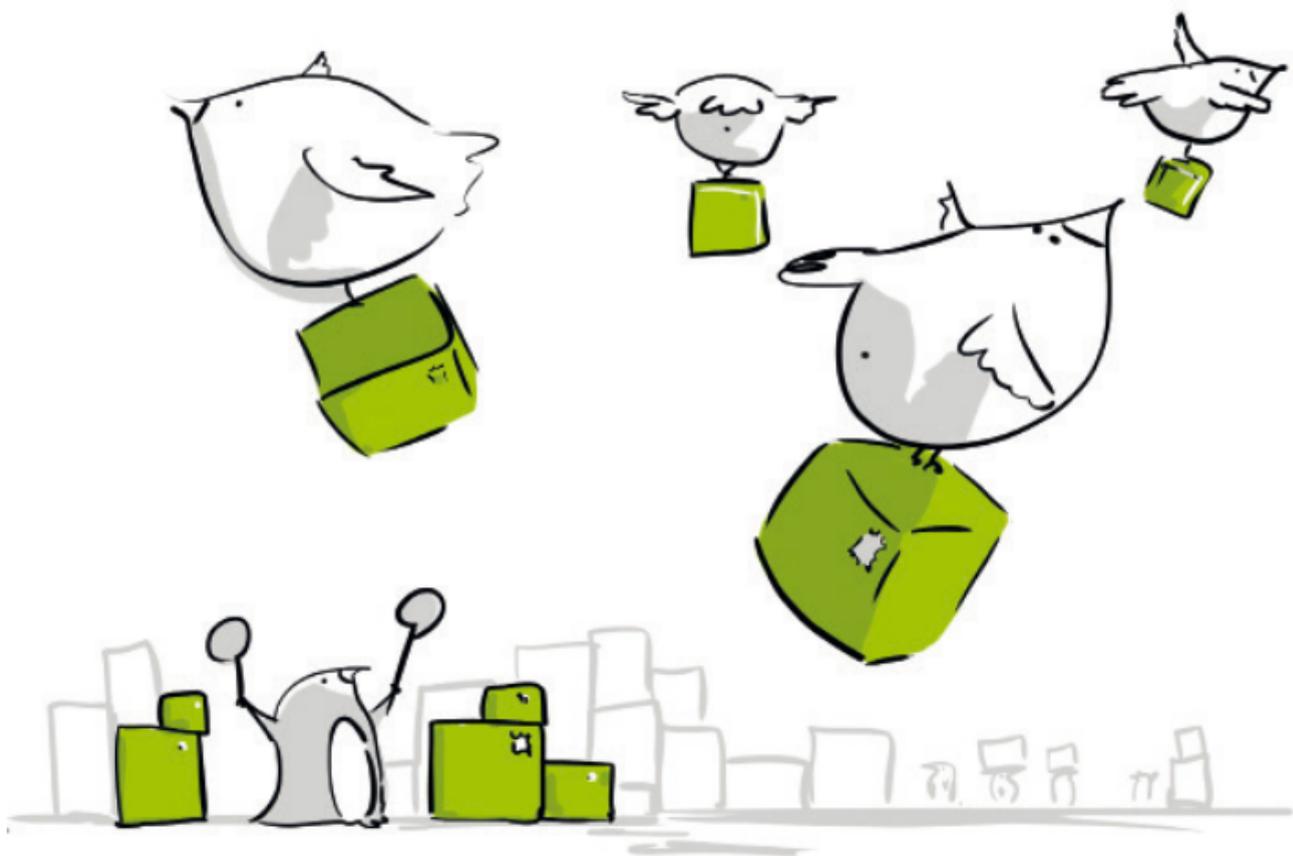

SOME EXTERNAL PRAISE.

Ornamin has been awarded several times – for inventiveness, intelligent design and innovative ideas. But also for its social commitment and family friendliness.

WE DO NOT TALK ABOUT HOME - WE LIVE IT.

Research, development, production:
Everything by Ornamin is made in Germany.

GLOBAL PLAYER.

Ornamin's products even travel the world - to facilitate and enrich living in Europe, Australia, Canada and Japan.
